Some people think

all direct selling companies are

THE SAME

They buy the least expensive product they can find. And then time comes
when the promises have to be fulfilled

That's when they learn the hard way...

all direct selling companies are

NOT THE SAME.

If being treated fairly, best services, excellent back office support, innovative Business Support Material and timely payouts are important to you, when you are into network marketing you need to have

FAITH and TRUST.. in Indian context, ASTHA.
